DETAILED ACTION

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kevin LeMond on June 21, 2010.

The application has been amended as follows:

26. (Currently Amended) A communication device comprising: a baseband symbol generator; a dipole antenna; and a power amplifier coupled to said dipole antenna, the power amplifier being configured to receive a first output of said baseband symbol generator from a signal path that includes a fractional-N sigma-delta modulator having a pre-emphasis filter, to receive a second output of the baseband symbol generator, and to amplify the first output with a gain that is controlled by a varying amplitude of the second output;

wherein said fractional-N sigma-delta modulator includes at least:

a sigma-delta converter coupled to the pre-emphasis filter; and a fractional-N phase locked loop unit coupled to an output of said sigma- delta converter,

wherein a transfer function of said pre-emphasis filter is to be optimized according to predefined optimization criteria, and

wherein said optimization criteria are related to an input to said pre-emphasis ~~filter and~~ are filter, and are further related to an input to a voltage controlled oscillator of the

Art Unit: 2611

fractional-N phase locked loop unit and not to an output to the voltage controlled oscillator of the fractional-N phase locked loop.

Allowable Subject Matter

Claims 26, 34-35, and 39-40 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach the limitation "wherein said optimization criteria are related to an input to said pre-emphasis filter, and are further related to an input to a voltage controlled oscillator of the fractional-N phase locked loop unit and not to an output to the voltage controlled oscillator of the fractional-N phase locked loop unit."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
